FOUNDATION

BUILDING THE FOUNDATION FOR STUDENT SUCCESS

Supporting Students – Our ‘Why’

The MTC Foundation makes an education more affordable for our students, allowing them to graduate with less debt.

We support students by raising funds for:

Scholarships

92% of MTC students receive some form of financial assistance. Like the Build Dakota Scholarship and the Double Edge Scholarship, donations can be designated for specific programs or to the area of greatest need.

Programs

MTC works with generous industry partners who provide state-of-the-art equipment for labs, so our students are better prepared to enter the workforce. Industry partners also donate their time and talents to our students by serving on Advisory Boards and as guest speakers.

Student Services

The MTC Student Support Fund provides a strong foundation for students who may need extra assistance in attaining their basic needs. Our goal is to eliminate as many obstacles as possible for students by providing access to resources which will allow them to focus on school and stay on track to graduate.

Thank you to all the people that have donated to our program to give us the best chance at learning. I appreciate that I can work with all different kinds of equipment that is the same as what is used in the industry. With my training at Mitchell Tech, I am very confident I will be successful.

Bailey Binger
MTC Alumnus

Connecting Alumni – Our ‘People’

The Foundation provides a variety of ways for alumni to stay engaged with the College with on-campus events and a quarterly newsletter. We encourage alumni to keep us updated on their career success after graduation by completing the ‘update information’ page on the Mitchell Tech website.

As alumni, we owe our base of knowledge to MTC. If that knowledge has built our career, enhanced our ability to earn a living, and contributed to our success, what do we owe in return and what can we give back? This may be too direct; however, it cuts right to the heart of what the Foundation is, and our mission.

Mike Sprang

Sales Director, TSTM Inc, MTC Alumnus, and MTC Foundation Board Member

The Mitchell Technical College Foundation was established in 1999 to provide support for the students and programs of the College. More than 20 years later, there has been much change and growth within MTC, but the vision of supporting students has remained consistent.

Our purpose is to build - scholarships, programs, endowments, and relationships:

Scholarships: to increase the opportunities for students to attend and finish their programs

Programs: to ensure students receive the best education with current tools and equipment

Endowments: raising funds for endowments helps us secure the future of scholarships, as well as program and student support

Relationships: to appreciate the important role our alumni and donors play in achieving our goals

As our network of supporters continues to grow, we look to them to help us continue the tradition and success of the Foundation and our commitment to making students our highest priority.
